The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/591,043	Applicant(s) SASHIDA ET AL.	
	Examiner SHANE FANG	Art Unit 4131	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. The abstract of the disclosure is objected to because it does not end in a period. Correction is required. See MPEP § 608.01(b).

Claim Objections

2. Claim 1 is objected to because of the following informalities: claim 1 shows an extra period in the first paragraph. Appropriate correction is required.

Claim Rejections - 35 USC § 102/103

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-4 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over **Sashida et al. (US 6720374 B2)**.

Sashida et al. discloses a biodegradable plasticizer for providing aliphatic polyester, in particular, polylactic acid.

As to claims 1-2, *Sashida et al.* further discloses aliphatic polyester composition comprising an aliphatic polyester, polyglycerol acetic ester and 5-50 parts by weight of a

Art Unit: 4131

compound (claim 12 and 13) The disclosed structure shown in claim 12 of the reference is a species of Formula (1) recited in the claim 1 and 2.

Sashida et al. is silent on the average acylation rate. In view of the substantially identical composition, the adduct would possess the claimed acylation rate properties. Since the PTO does not have proper means to conduct experiments, the burden of proof is now shifted to applicants to show otherwise. **In re Best**, 562 F. 2d 1252, 195 USPQ 430 (CCPA 1977); **In re Fitzgerald**, 205 USPQ 594 (CCPA 1980). See MPEP § 2112.

As to claim 3, the reference discloses the plasticizer in claims 1 used for polylactic acid (Abstract)

As to claim 4, the reference discloses the aliphatic polyester composition recited in claims 1-2 to be used for making a film, a sheet, a bag by molding (Abstract).
